Simple Buying Rules To Save You Money

With the high cost of living, everyone wishes to know the best ways possible to save when making purchases. Would you like to save money when buying a car? Do you do comparison shopping at supermarkets? Do you know the real cost of buying on credit? Do you manage your weekly salary well? Is a budget important in managing your family dollars?

I wish to share with you this week some rules from the American Council of Life Insurance. They have suggestions that will be helpful for any of us to follow. They are as follows:

Buying a Used Car - 1. Shop around. Go to more than one dealer. 2. Consult an expert before making your purchase. 3. Don't be pressured into making a quick decision. 4. Get a written guarantee. 5. Never sign anything until you are sure of what you are signing. 6. Always total the cost of the installment payments and see what you are really paying for the car. 7. Remember a used car's real price includes the cost of repairs and insurance.

Setting up a Budget - 1. Write down how much weekly take home pay you get. 2. Set aside enough to cover the bills like rent, insurance, electricity and telephone. 3. Put aside money for emergencies. 4. Decide how much you need for weekly food and transportation. 5. Before buying luxuries, make sure you purchase necessities. 6. Since part of your weekly salary usually goes for social security and life and health insurance, understand these benefits and their importance in your life. 7. Start now to provide security for your future needs.

Supermarket Purchases - 1. Before you shop, write out a list of things you really need. 2. Compare prices of different brands of a product. Be sure to check store brands. 3. Compare weights by reading container labels. 4. Shop at different stores for the best prices and watch for sales. 5. Buy quality, but don't pay extra for higher quality than you need.

Buying on Credit - 1. Save for a good down payment so the credit charges will be smaller. 2. If you buy on credit, try to complete the payments as early as possible. This saves interest payments. 3. Go to different stores and companies and compare their credit plans and the real cost of their credit. 4. Make sure you understand the credit contract before signing it. Read all the small print.

Homemakers, if you have a homemaking question or problem, please call at 352-8244 or write the Appomattox County Extension Office at P.O. Box 488, Appomattox, Virginia 24522. It is always good to hear from you and we are always glad to help you.

HAPPINESS IS 4-H

By Frank H. Sweet
Extension Agent

This is National 4-H Week (October 1-7) and we'll have a section in next week's **Times Virginian** about the 4-H program in Appomattox County. A total look at 4-H seems meaningful during this important week.

4-H is the name of the youth program as conducted by the Cooperative Extension Service in partnership with volunteer leaders, state land grant universities (VPI&SU) and the U. S. Department of Agriculture. The overall goal of the 4-H program is the development of youth individually and as responsible and productive citizens.

4-H programs are now carried out in 3,150 counties in the United States. Over 80 countries have youth programs similar to or modeled after the 4-H program.

Over 5 million young people are currently involved in 4-H programs and activities across the United States. Of these 4-H'ers, the majority live in rural communities much like Appomattox. Only one out of five 4-H'ers currently live on farms, nationwide.

4-H'ers in Virginia belong to community clubs, in-school clubs, special interest groups or may be individual members. Over 200,000 youth in Virginia took part in 4-H during 1977.

Volunteer leaders are a vital part of the 4-H leaders. Some leaders are 4-H alumni, some are interested parents and many are simply adults with an interest in the development of young people. Everyone can be a leader in the 4-H program.

4-H projects today have changed tremendously from the conventional agriculture and home economics. Today's 4-H'ers may choose project materials that include veterinary science, dog care, small pets, plant science, small engines, electricity, aerospace, ecology, wildlife, economics, marketing, community development, arts and crafts, health, child care, consumer education, photography and a host of others.

Next week we'll look at more details about the 4-H program in Appomattox County.

Appomattox 61; Altavista 0

The Raiders needed only 37 seconds to score their first touchdown then added eight more in defeating Altavista 61 to 0 in Bragg Stadium Friday night.

After receiving the opening kick-off, the Colonels fumbled on the first play from scrimmage and the Raiders recovered at the Colonel 32 yard line. On a beautifully executed delayed pass play, Joe Fraley found Darrell Schrock all alone in the end zone and fired a 32 yard touchdown pass. Freddie Mitchell booted the PAT and the Raiders led 7 to 0.

Midway in the first period, Fraley scored from the one on a quarterback keeper and with 4:32 remaining in the quarter Terry Woods took one in from the one. Mitchell added another PAT and the first quarter ended with the Raiders ahead 20 - 0.

On the first play of the second period, Fraley lofted a 44 yard bomb to Schrock who scored his second TD of the night. Byron Roach passed to Harvey for the two point conversion. Two minutes later Andrew Kelso got his TD on a nine yard run and a pass for PAT failed. With 2:17 remaining in the first half Fraley again found Schrock with a 34 yard touchdown pass. Mitchell's kick was good and the Raiders were ahead 41 to 0 at halftime.

The Raiders took the second half kick-off and moved toward the goal line with Coach Stuart Justus substituting freely. The Colonels held on a fourth down inside the five and gained possession however the Altavista quarterback fumbled at the goal line and Glen Gilliam recovered in the end zone for a Raider TD. Mitchell's kick made the score 48 - 0. Moments later Earnest Daye took a Byron Roach pass on his fingertips at the sideline and streaked 35 yards to paydirt. The play cover 46 yards. Mitchell's kick failed.

In the fourth quarter Tony Hancock scored the final Raider TD on a one yard run after moving the ball downfield with a series of short gainers. Mitchell split the uprights giving the Raiders 61 points for the night.

The Colonel's offensive unit never got rolling but the Raider defense must be given a lot of credit. They have allowed only two touchdowns all season and have shutout four of five opponents.

The Raiders travel to Brookville for a very important game Friday night.

Many of you know Farm Credit lends money for just about anything a farmer needs. But we'll bet you didn't know Farm Credit also lends money to non-farmers too.
If you're interested in buying or building or fixing up a home out in open country, we've got the money you need. At rates big city banks can't touch.
The only limitations are that the property has to be in the country and the total value can't be more than $65,000. Of course, if the land you're looking at covers 8 or more acres, even that money restriction can be lifted.
If you've been talking about a home in the country, now's the time to stop talking and start looking. At the rate it's going today, we can't guarantee this money is going to last very long.
If you want to live in rural America, then we're your kind of people.
